

## GSK Orange United Run

How to... return to the entry site and process further entries.

1. It may be that you need to register more than one person for the GSK Orange United Run. You can enter multiple individuals in one session, but sometimes you will have to return to the system to add subsequent entries.
2. If you have already registered on the GSK Orange United Run sign-up page to process an entry, when you type in your e-mail address to begin processing a subsequent entry, you will receive the following pop-up message: "E-mail Address Already Exists"
3. At this stage, enter the e-mail address and password you registered when first using the sign-up system. Then click "Authenticate". If you can't remember your log-in details. Select "Forgotten Your Password" and follow instructions.

4. Once you have authenticated your details, you will see the following screen. Select "Register Another Person To This Account" and then proceed with the entry process as normal.
